SITE AERIAL

FLEX OFFICE FOR LEASE

BUILDING SPECIFICATIONS

STRUCTURAL DATA

- Single Storey (16' to U/S of steel)
- Efficient R/U ratio (gross up factor) of approximately 1%
- Exterior walls are aluminium and glass curtain walls, pre-finished metal panels and architectural concrete

PARKING

- Free surface parking, first come, first serve
- 5+ parking spaces per 1,000 sf of rentable area

BUILDING EXTERIOR FINISHES

- Double-entry glass doors
- Tinted double glazed low "E" coated vision windows

MECHANICAL SYSTEM

- HVAC systems can be tailored to tenant's specific requirements

FLOORING

- 4" concrete slab on grade throughout
- Floors to be smooth, level, and ready to receive floor finishes by tenant

ELECTRICAL

The electrical system shall be supported by incoming service capability sufficient to satisfy the needs of standard office users throughout the space.

From a central electrical room, suitably sized, individual services may be provided to each tenant space, specifically designed to satisfy the requirements of the tenant.

PLUMBING AND DRAINAGE

Plumbing and drainage system is flexible regarding the specific placement of washrooms, cafeteria, and other facilities within the space that require the provision of potable water and the use of sanitary drainage.

FIRE PROTECTION

Premises shall be equipped with a complete wet pipe sprinkler system in accordance with N.F.P.A. 13 and the Ontario building code, all designed to satisfy the requirements for the office occupancy (light hazard 0.10 gpm per sf). System shall be specifically designed to allow for custom modification to satisfy tenant requirements.
