

FIRST FLOOR PLAN VIEW

NOTE:
Every attempt has been made in the preparation of the design and engineering of these plans and blueprints to avoid error. However, because of the great variance in local building code requirements, and other local building and weather conditions, no responsibility is assumed for any damages, including structural failures, due to any deficiencies, omissions, or errors in the design or blueprints. It is the responsibility of the owner and/or General Contractor to consult a local architect or engineer, check with local building officials, and verify all dimensions for the job, prior to start of actual construction.
