PIONEERING EFFICIENCY

As a minimum, Prologis units achieve a rating of BREEAM Very Good and significantly exceed Building Regulations. Optional features such as motion sensor LED lighting, solar PV and Tesla batteries in addition to our quality base build have saved up to 80% of regulated energy costs elsewhere on Prologis Park Pineham.

Our units are constructed to achieve Planet Mark certification as standard so choosing DC5/8 will not only reduce your operational energy costs but will also contribute positively to your CSR credentials.

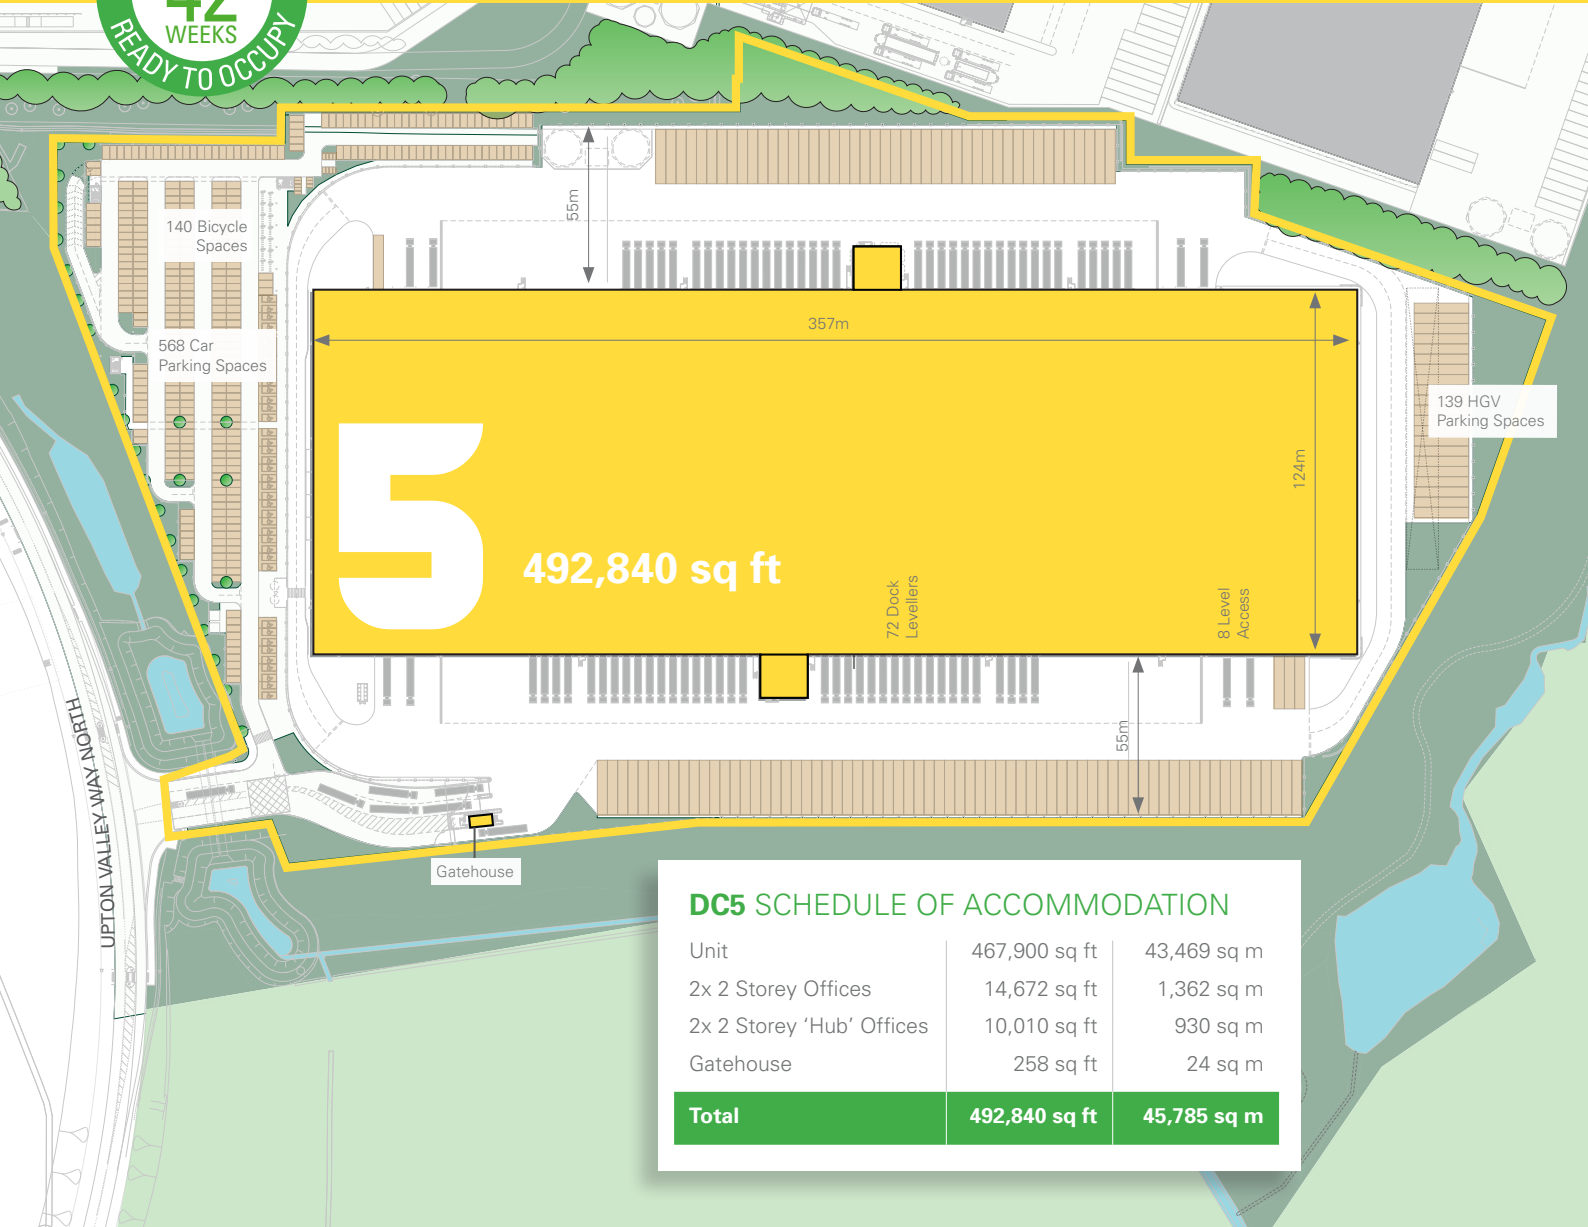

Liftshare partners drivers and passengers together to share the cost, and hassle, of the daily commute to work. With over 350 members, Prologis Park Pineham is the most successful of our schemes making it even more accessible for the staff working within the Park. The average Liftshare member could save over £1,000 per year on commuting costs.
