

Wetland Flags
1400 State Road 207
St. Augustine, St. Johns County, FL
 September 5, 2024

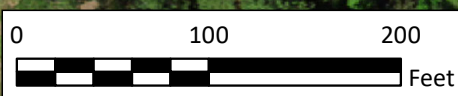

This exhibit is the result of a GPS-based delineation of the wetland boundaries by Oneida Environmental. The accuracy limitation of the GPS unit is approximately 1.5 meters. This boundary has not been located by a Registered Land Surveyor or been reviewed by any regulating agency. This exhibit should not be used for detailed site planning. Wetland boundaries can more accurately be determined by location of delineation flags by a Registered Land Surveyor, and review approval by the regulating agencies.
