THE WELLINGTON TRILOGY

The Wellington Trilogy draws on the heritage of **Fradley Park**, and its former life as RAF Lichfield, through the naming of the units.

Pegasus, **Perseus** and **Merlin** were pioneering aircraft engines of their day with those individuals operating them at the top of their game.

The Wellington Trilogy at **Fradley Park** draws on this in terms of the market leading specification on offer which will help those companies operating from them to excel within their marketplace.

The Wellington Trilogy is targeting the Mid-Box Industrial and Logistics market and is being developed in a proven and established location.

Superbly located with excellent access to the region's motorway network and main arterial routes.

The success and appeal of **Fradley Park** over the years can largely be attributed to its ability to adapt and accommodate the core requirements of prevailing market sectors.

The Wellington Trilogy acknowledges the traditional requirements of the Industrial and Logistics Mid-Box market, and exceeds them in terms of eaves heights and yard depths.

A market leading specification in the Midlands – *Truly Pioneering*
