Purdue Technology Center

Purdue Research Park of West Lafayette is home to the largest cluster (100 +) of technology based companies in the state. As the state's first designated certified technology park, the Purdue Research Park is the largest university-affiliated incubator in the world and is home to many Purdue University startup companies.

All companies located in our technology centers and research park have access to an array of complimentary services provided by our teams in human resources, marketing and communications, client services, physical facilities and McClure Services.
