

Access to Amenities

Please refer to the following map for detailed information on the varied and plentiful amenities currently existing and located within the prescribed 2,640 walking linear feet (“wlf”) of Sentinel Square II. In addition, we have included a brochure from the NoMA Business Improvement district that shows some additional amenities.

Circulator

In addition, Sentinel Square III is 1,750 wlf from the DC Circulator Bus stop at Union Station. The DC Circulator is a public transit system designed to provide riders with direct access to DC’s premier cultural, shopping, dining and entertainment destinations. The DC Circulator Gold Line puts the amenities of the Central Business District and the vibrant East End just minutes away. The buses run every 10 Minutes from 7 am to 9 pm daily. Monthly passes are available. Two bus routes leaving from Union Station are Georgetown – Union Station Route and Union Station – Navy Yard Route.

This section includes system map and fare information for DC Circulator. Further details may be found at www.dccirculator.com.

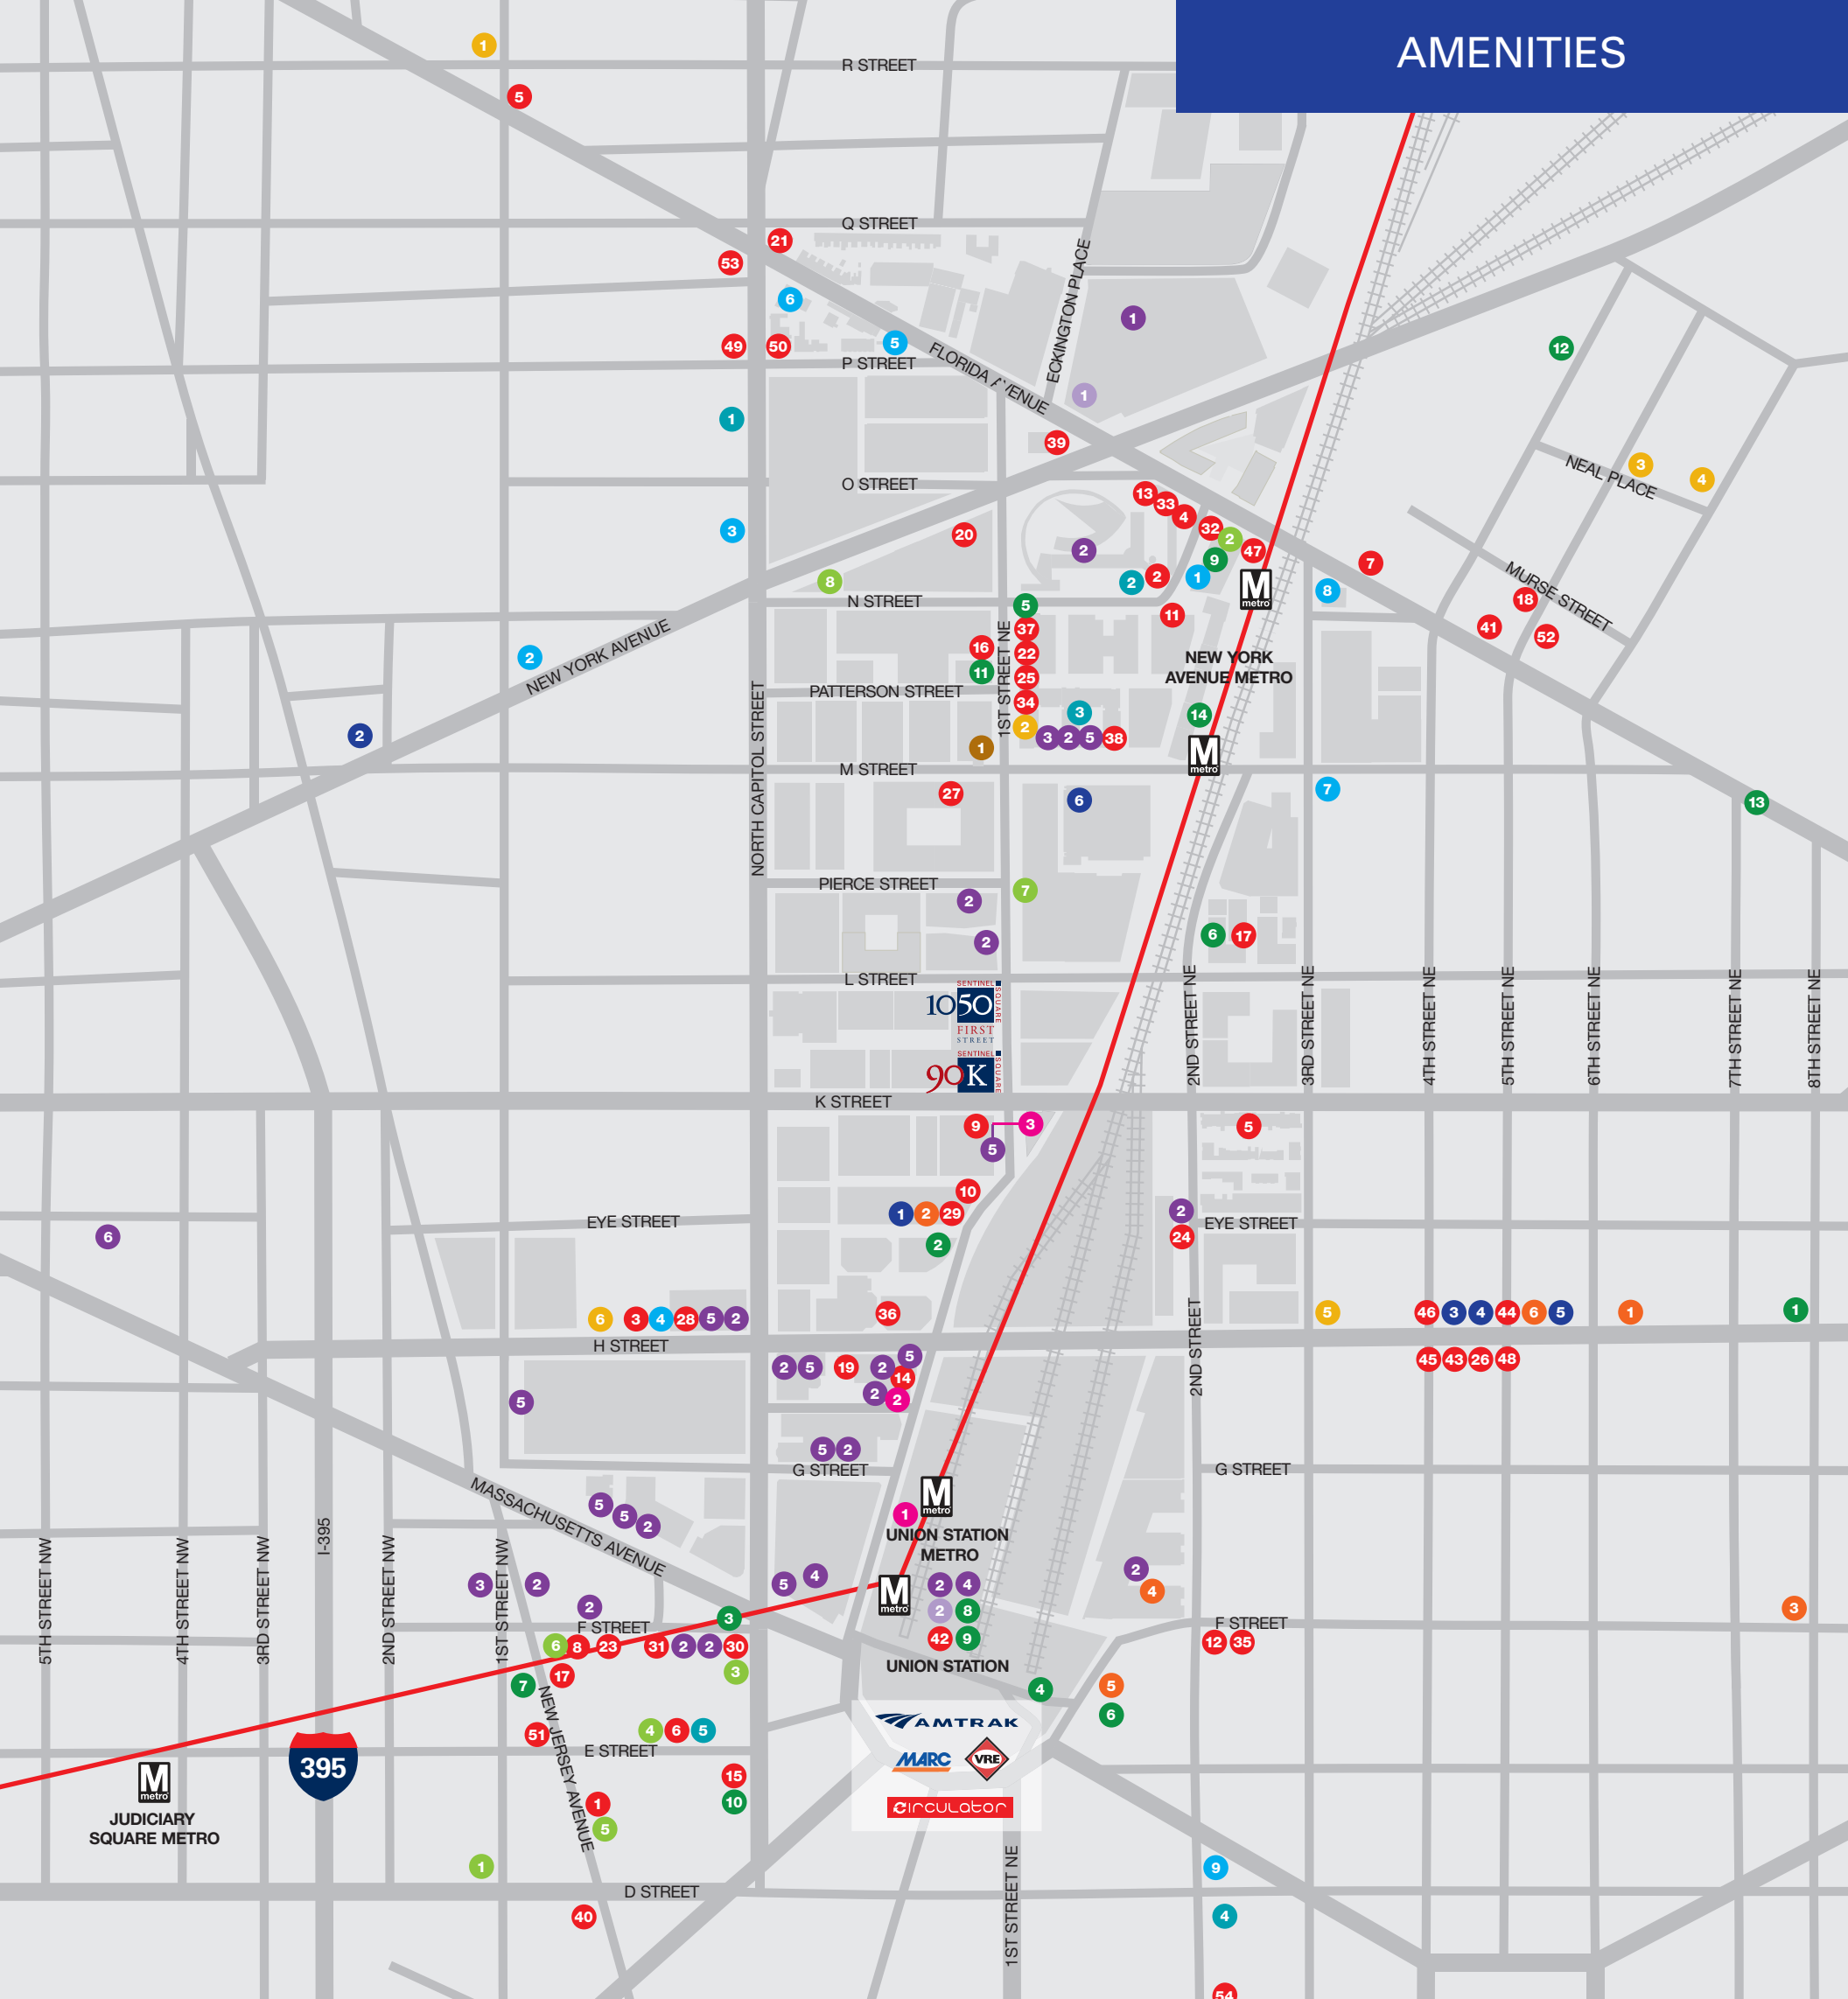

DC Street Car

After more than 50 years, DC Streetcar is back to provide District residents and visitors another transportation option designed to connect our District neighborhoods.

The DC Streetcar will make travel within the District much easier for residents, workers and visitors, and it will complement the existing transit options. H/Benning is a 2.4 mile segment that serves residents, businesses, commuters and visitors between Union Station on the west and the Anacostia River on the east. Ultimately, the H/Benning line segment will be just one piece of an extended east-west line that will traverse the city from beyond the Anacostia at Benning Metro to the Georgetown waterfront. Operation of the H/Benning Line commenced in late February 2016.

Each streetcar stop has ticket machines, where passengers can purchase a pass with cash, credit or debit card.

AMENITIES
