ZERO CARBON FOR THE FUTURE

Fifth Line Business Park invites you to the future with its groundbreaking Zero Carbon designs - the first of their kind in Milton. By challenging traditional construction and operational practices, 6670 Fifth Line has the potential to convert to Zero Carbon Building™ (ZCB) Certified.

With enhanced warehouse ventilation, an airtight building, efficient heating and destratification, energy-efficient electrical systems, and rooftop solar panels, Fifth Line Business Park's innovative Zero Carbon features set a benchmark for reducing carbon emissions and promoting a greener tomorrow.

THE FIFTH LINE BUSINESS PARK DIFFERENCE

ZERO-CARBON SPECIFICATIONS

6670 FIFTH LINE - "ZERO CARBON READY"

Transition Plan + Annual ZC Performance Certification

- ◆ More airtight building leading to less air leakage.
- ◆ Includes increased roof and precast panel insulation.
- ◆ Increased structural reinforcement in the roof to accommodate future rooftop solar panels.
- ◆ Increased electrical capacity to support future transition to all-electric HVAC.

WHAT IS A ZERO-CARBON BUILDING?†

A zero-carbon building is highly energy-efficient and minimizes greenhouse gas emissions from building materials and operations. Until all emissions can be eliminated, high-quality carbon offsets can be used as a counterbalance.

MILTON, THE FASTEST GROWING AND MOST PREFERRED AREA IN THE GTA WEST

Milton delivers infrastructure and business services; transportation and logistics corridors. It has a historical five-year rolling average of 1.2 million sq. ft. of industrial, commercial, and institutional development.

ABOUT MILTON

Milton has become the fastest growing and most preferred area in the GTA West and has been a key area of focus due to strong leasing momentum, user demand, and lower development charges versus competitive areas.

The Milton market is driven by the substantial investment made by institutional Owners and Developers which have transformed the area into the dominant distribution and logistics market in the GTA. Various new uses have been following the trail of modern construction and residential growth and the demand for various types of product with various utility continues to be robust.

The Milton submarket is recognized for being placed directly on the country's most significant transportation and logistics corridor, Highway 401. Highway 401 is the driver of Milton, and the lifeline of the distribution of goods from Milton to every major market in Canada and the USA. Milton has direct access to Highway 401, the existing CP Intermodal, and the planned CN Milton Logistics Hub, making Milton a compelling location for heavy freight, container, and logistics users. Milton is home to many major economic sectors including some of the largest international retailers, consumer products companies, and major manufacturers.

Milton benefits from its proximity to The Toronto Pearson and Hamilton Airports, two US border crossings, and the ability to service over 7,000,000 people within a 1-hour drive-time.

The area is only 1 hour from the Canada-U.S. border, 30 minutes from Waterloo, 30 minutes from Toronto Pearson International Airport, and 40 minutes from Toronto's downtown core.

A PLACE OF POSSIBILITIES

Strategic location provides users with access to Highway 401, 407, rail as well as public transit (bus and Go-Train) for labour accessibility. Many planned infrastructure improvements will further enhance the area.
