Investment Overview

The Foundation Group is pleased to exclusively offer for sale the Franklin Four, a 4-unit apartment building in Eastlake. The property provides an opportunity to purchase a trophy 4 unit building in one of Seattle's preeminent submarkets. The proximity to employment centers (CBD and the University of Washington), public transportation, retail amenities, and the opportunity to add a unit makes this property a can't miss for your next acquisition.

Originally built in 1950, the Franklin 4 has gone extensive changes over the years. In 2009 an ADA unit was legally added making it a triplex. In 2017, the owner added a 2 Bedroom / 2 Bath unit with a deck to the building as well. The opportunity to acquire large new units for a non-commercial apartment building is very rare in Core Seattle.

The opportunity to add a unit, hold for land value (potential up zone) add bedrooms, convert the property to an AirBnB, or owner occupy makes this property very desirable in any market cycle.

With the Franklin Ave E upzoning right next to the Franklin 4 this property is an incredible land bank play for future aggressive upzoning in the neighborhood.

Eastlake Area Description

Eastlake is on one of the most desirable neighborhoods in the City of Seattle. Being next to the Central Business District which is the largest job center in the region makes Eastlake very attractive to a strong tenant profile. In fact, from 2010 to 2018 Downtown Seattle accounted for 67% of all the job growth in the Puget Sound region (Per the Downtown Seattle Association). Eastlake also enjoys proximity to Amazon (South Lake Union), The University of Washington, and Google (Freemont).

Nestled inside Eastlake there are a myriad number of restaurants, coffee shops, and bars overlooking the water. With potential up zoning and a high barrier to entry Eastlake will continue to be a top performing submarket.

Eastlake is a supply constraint market in Seattle that offers a great live, play, and work environment.

Seattle / Puget Sound Region

Seattle is the largest city in the state of Washington with an estimated population of 684,500 as of 2015. The Seattle metropolitan area, also known as The Puget Sound, is comprised of King, Pierce and Snohomish County; as an MSA it's the 15th largest metropolitan in the United States with a population of approximately 3.7 million people.

Seattle has a thriving local economy and is home to eight Fortune 500 companies including Costco, Microsoft, Amazon, Paccar, Starbucks, Nordstrom, Expeditors International and Weyerhaeuser. In addition Seattle is home to other notable tech companies such as Expedia, Zillow, Tableau and Zulily, and is quickly establishing itself as a national tech hub as companies from Silicon Valley ranging from Google to Facebook, open Seattle offices in an attempt to draw on the talented pool of tech workers living in and moving to Seattle.

In 2016, Zillow ranked Seattle as the second hottest housing market in the nation for appreciation. Similarly in June of 2016, Redfin also ranked Seattle as the second hottest housing market behind Denver, where the average days on market of a listing is eight and median sales price growth year over year is 7.5%. Much of this growth comes from the hot job market in Seattle, ranked as the fourth best in the nation. A statistical analysis by Careerbuilder found that in 2015 Seattle added 78,082 jobs. Recently Conway Pederson forecasts they expect the Puget Sound region to add 47,900 jobs in 2016.

Currently, the year to date in-migration to the Puget Sound, based on driver's license data for January through May, shows 49,656 people have moved into the area. On an annual basis, the 12-month moving average of monthly in migration is approximately 10,000 people. Annually that puts more than 120,000 people moving into the Puget Sound region; though this does not account for people moving out of the region, the bottom line is the area has and will continue to grow at a rapid pace making the rental market as strong as its ever been.

A panoramic view of the Seattle skyline at sunset. The Space Needle is the central focus, illuminated against a sky of orange, yellow, and blue. Other skyscrapers are visible, some with lights on. In the foreground, there are trees and a large stadium with a red roof.

Buoyed by its technology sector and the metro's appeal as a live-work-play environment, Seattle's economy and multifamily market continue to break new ground.
