

Mollyockett Motel & Crosstone Restaurant

The Mollyockett Motel & Swim Spa is a 20 unit motel with a beautiful indoor heated pool, hot tub, and sauna. Each room has unique character. The Crosstone Restaurant and Conference Center is a thriving 60 seat restaurant, which also has a function room that can seat up to 100 people.

We pride ourselves at being very clean, friendly, simple, and full of Maine hospitality!

We are located in the Western Mountains of Maine on a busy highway. We are in the country and offer our guests a clean, friendly, quite, and relaxed place to spend their vacation. Even though this area of Maine is known for all the tourists that come here, there are not very many motels, so when they see our vacancy light they are delighted. We are 3 hours from Boston, 6 hours from New York City, and 8 hours from Philadelphia. This means the Mollyockett Motel and Crosstone Restaurant are a day's drive away for millions of people, and these millions of people love the Western Mountains of Maine.

The Mollyockett Motel & Crosstone Restaurant are very busy in the winter with the skiers as we have 3 Ski Slopes within 30 minutes. The summer is our busiest season as tourists, national and international, flock to our area and enjoy its beauty.

Another very big draw to the area is the fact that 1/3 of all minerals in the world are represented here in Oxford County! It has been recorded that eighty thousand "Rock Hounders" come here a year to come and try their hand at finding that beautiful gem they dream about. Next door to us is a business where people come from all over to dig to find tourmalines and other gems. 15 Miles up the Rt # 26 they are building a state of the art, rock & mineral museum. It will also be an educational and research facility.

Many people come here to simply get some R & R, to get away from the business of the big cities and the responsibilities of life. We have a very strong loyal repeat customer base. We are constantly gaining new customers.

The Crosstone Restaurant & Conference Center is 8 years old and continues to grow in sales every year. We offer a vast menu that has something for everybody. We are praised for having the best food around at a great price. Again there are not a lot of restaurants in the area so we wanted to build a place where our guests could enjoy a nice meal when they are traveling. The restaurant has become not only a place for our motel guest to enjoy but the restaurant also has a very strong –loyal support from the people who live in the area. The conference-function room serves to meet many of needs for the local business, churches, and families.

Please visit our website www.cs26.net it has all the information and descriptions of our facility
