**DEDICATED TO
OUR EMPLOYEES,
CUSTOMERS AND
COMMUNITIES.**

ADAMS INDUSTRIES

Headquartered in Sidney, Nebraska, Adams Industries is dedicated to supply chain services, specifically trucking, warehousing, logistics, transloading and maintenance. Having convenient access to Interstate 80, several major highways and served by both the Burlington Northern Santa-Fe (BNSF) and Union Pacific (UP) railroads, our distinctive location gives us the ability to serve multiple industries. In addition to these services, we also own property that has been designed to enhance industrial development for manufacturing and service providers.

Our operations expand out to Dayton, Texas in the greater Houston area, where we have a trucking terminal, maintenance shop, and logistics office. We also have a logistics office in Denver, Colorado.

COMPANY VISION

Adams Industries is a family-oriented organization dedicated to the well-being of our employees and service to our customers and community. Our team designs and implements optimal supply chain solutions for the specific needs of our customers and commercial tenants. Investing in talented individuals and taking on new opportunities stimulates our innovative and entrepreneurial spirit. We value a culture of continuous improvement and supply chain excellence to achieve strong, sustainable, long-term growth for both Adams Industries and our customers.

TRUCKING

ADAMS TRUCKING HAS THE CAPABILITY TO DEDICATE TRUCKS AND TRAILERS TO ACCOMMODATE YOUR SPECIFIC NEEDS

TRUCKING

Adams Trucking specializes in large jobs with multiple loads, especially flatbed trucking. We are committed to helping our customers haul nearly any commodity safely and efficiently, but we specialize in over length and oversized loads.

We are dedicated to on-time delivery and maintain constant contact with our professional truck drivers via satellite communications. All trucks are equipped with electronic on-board recorders providing the capability to track shipments in real time, communicate any route changes or delays, and monitor the delivery of inventory.

Adams Trucking has terminals in Sidney, Nebraska and Houston, Texas.

SERVICES

- Asset based dedicated fleet options
- Availability to track shipments via GPS location services
- Route optimization
- Provide services for over dimensional loads
- Specialized tractor and trailers, with tow capability, equipped to access right of way stringing projects

EQUIPMENT

- Fleet of late model tractors
- Various types and lengths of flatbed trailers
- Specialty Trailers
 - Steerable-extendable pole trailers
 - Removable goose-neck (RGN) trailers
 - Step-deck trailers
 - Steel coil trailers
 - Belly dumps
 - Pneumatic trailers

WAREHOUSING

ADAMS WAREHOUSING IS SERVED BY BOTH THE BNSF AND UP RAILROADS, HAS CONVENIENT ACCESS TO SEVERAL MAJOR INTERSTATES AND HIGHWAYS, AND IS WITHIN A DAY'S DRIVE FROM SEVERAL MAJOR CITIES.

ADAMS WAREHOUSING

Whether you're looking to store products short-term or long-term, Adams Warehousing facility has a large capacity of indoor, outdoor and railcar storage space. With a vast array of heavy equipment, we have the capability to handle almost any size and type of job.

WAREHOUSING STORAGE SERVICES

- **Indoor Bulk Warehouse Storage (720,000 ft²)**

We can store any bulk commodity that requires a sheltered environment. Examples: fertilizer, frac sand, palletized goods, super sacks, machinery, equipment and many more.

- **Outdoor Yard Storage (900 acres)**

We can store any large commodity that does not require a sheltered environment. We can also build customized outdoor storage yards to accommodate specialized needs. Examples: OCTG pipe, coated line pipe, oil pump jacks, rail road building materials, hay and many more.

RAILCAR STORAGE

- Over 65,000 ft. of track on site
- Will accommodate short-term or long-term storage needs
- Will accommodate a single manifest car or multiple unit trains
- Switch engines on site to easily move cars

TRANSLOADING

ADAMS INDUSTRIES HAS THE KNOWLEDGE AND EXPERTISE TO DEVELOP TRANSLOADING OPERATIONS TAILORED TO MEET CUSTOMER'S SPECIFIC NEEDS.

TRANSLOADING

Adams Industries utilizes its specialized trucking division and access to the two largest railroads in the United States, BNSF and UP, to transload virtually any commodity from one mode of transportation to another in a safe and efficient manner. Transloading bulk product with Adams Industries has many advantageous factors including efficiency, low cost, effectiveness and time savings.

SERVICES

Adams Industries has the capabilities and necessary equipment to transload product coming in by rail, onto a truck and vice versa. Our indoor and outdoor warehouse storage facilities provide the option for storing the commodity, short-term or long-term, until the customer is ready for delivery.

EXAMPLES OF COMMODITIES TRANSLOADED BY ADAMS INDUSTRIES

- Crude oil
- Frac sand
- Fertilizer
- Pot ash
- OCTG pipe
- Coated line pipe
- PVC pipe
- Building materials
- Machinery and heavy equipment
- Cement
- Steel coils
- Oil pump jacks
- Lumber
- Railroad Ties

LOGISTICS

IN ORDER TO MAKE OUR OPERATIONS SUCCESSFUL AND BETTER SERVE OUR CUSTOMERS, WE HAVE OPENED SEVERAL DIFFERENT BROKERAGE OFFICES LOCATED IN SIDNEY, NE, DENVER, CO, AND HOUSTON, TX.

ADAMS LOGISTICS

Adams Logistics operates a truck brokerage service which works to provide our customers with the logistics services needed to get their freight moved in the most cost-effective manner, with qualified motor carriers. We work to determine what our customers need to have shipped and seek the right carrier to haul the freight to their desired destination. Our logistics team has many years of experience and utilizes up-to-date technological resources, which allows us to provide unparalleled service to our customers.

SERVICES

Adams Logistics services that are offered include, but are not limited to:

- Flatbed freight
- Direct discharge
- Van freight
- Pipeline stringing, oilfield and rig deliveries
- Oversize/dimensional and heavy haul
- Container drayage and stripping
- Hot shot and local deliveries
- Domestic LTL shipments

3PL SOLUTIONS

A supply chain is complex, and in continuous change. Businesses face constant challenges to keep ahead of capacity constraints, shortages, lead times and a constantly evolving list of factors that can impact your success. The goal of Adams 3PL Solutions is to manage that balance of cost and service, in order to optimize the potential profits for your business.

Our expertise is focused on improving your supply chain performance. We do this by working collaboratively with your business to identify gaps in current processes that are sub-optimal to your overall goals. By improving your supply chain, we will generate better results for your bottom line.

Collaboration is important, so that we can fully understand the factors that drive your business. It is important to realize what issues are important to you, respect your decisions of what cannot be changed, and work with your team to create an action plan that can be executed with measurable results.

Our priority is your success and we will insure that the results are documented and scrutinized for continuous improvement.

COMMERCIAL PROPERTY

TRUCK AND RAIL TRANSPORTATION, TRANSLOADING SERVICES AND EQUIPMENT MAINTENANCE WILL ALL BE AVAILABLE TO FUTURE BUSINESS PARTNERS WHO DEVELOP THEIR OPERATIONS AT THE ADAMS INDUSTRIES INDUSTRIAL PARK.

ADAMS INDUSTRIES INDUSTRIAL PARK

The Adams Industries industrial park is fully equipped with water, sewer, electricity and phone lines. This leasable land is available for manufacturers or service providers looking for industrial development that may need larger acreage for their operations. Businesses that choose to develop their operational facilities on the Adams Industries property will be in a very advantageous position as Adams Industries will be able to provide those businesses with a wide variety of services to help enhance their competitive advantage. From truck and rail transportation solutions to transloading services and equipment maintenance, Adams Industries will collaborate with current and future business partners to help ensure their success.

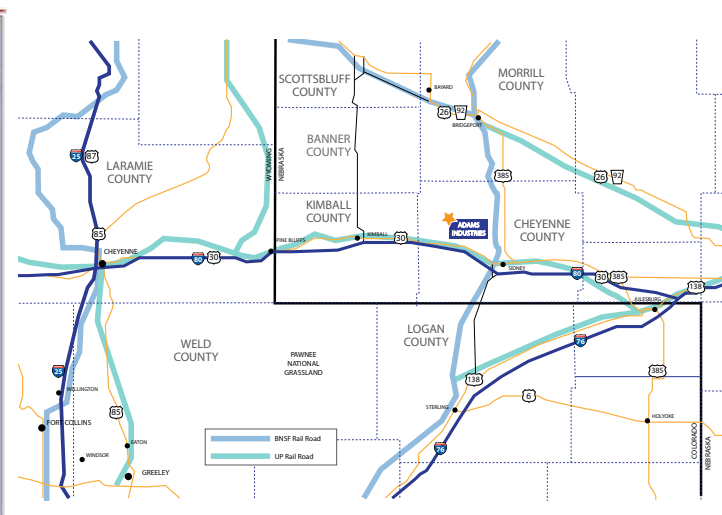

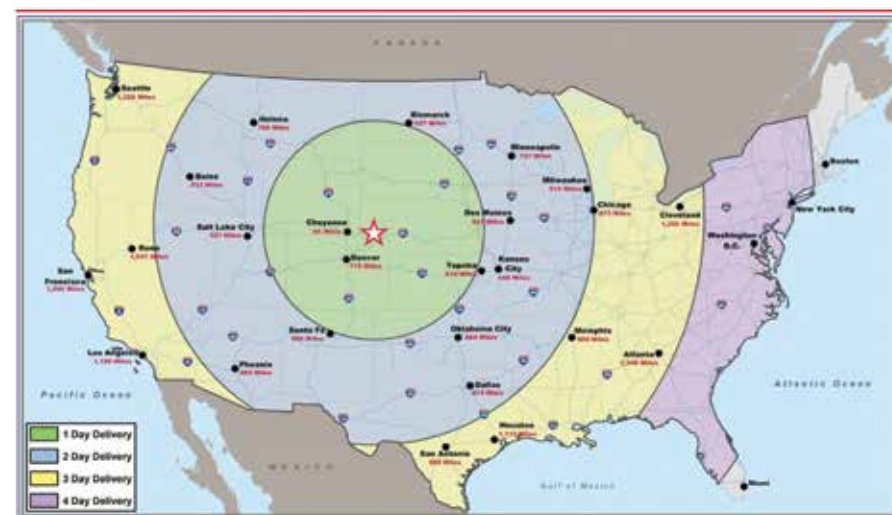

PROPERTY DETAILS
