# LOCATION:

The subjects are within the popular Deeside town of Banchory which is located some 17 miles west of Aberdeen. The town serves as one of the main service and employment centres in the area and offers a variety of services and facilities including a vibrant town centre.

The subjects themselves are situated on the west side of Dee Street which forms part of the A93 route carrying traffic from Aberdeen through Banchory and thereafter onto Ballater and Braemar. The subjects further benefit from being located at the junction of Dee Street and High Street in the centre of the town. The surrounding area is mixed in nature with commercial/retail occupiers located at ground floor level with the upper floors being within office and residential use.

The Ordnance Survey extract overleaf is for identification purposes only.

# **DESCRIPTION:**

# 2-4 DEE STREET-

The subjects comprise of a two storey building of traditional granite design. The roof over the property is pitched and slated and incorporates dormer projections. The property benefits from a strong retail frontage situated on a prominent corner location with a number of large double glazed windows present.

Access to the property is via two pedestrian doors of double glazed design encased in metal. The front section has been utilised as the sales area of the property with the rear of the ground floor and upper floors utilised for the display of furniture. The floors of the front section of the property are of concrete design covered in laminate wood flooring with floors towards the rear of the property of a raised timber design. Walls throughout the property are a mixture of traditional concrete with some stud partition walls also present. Ceilings are of suspended design and incorporate fluorescent strip lighting. A small staff room is located directly from the front sales section whilst a small storage room is located towards the rear of the property.

Access to the first floor is via a timber staircase located towards the rear of the unit. At first floor level floors are of suspended timber design and are carpeted throughout. Walls have been plastered and painted with ceilings of suspended design incorporating fluorescent strip lighting. A staff W.C./tea prep area is additionally located at first floor level.

Access to the second floor is located via a timber staircase. The second floor provides additional storage/display areas of suspended timber flooring design which have been carpeted throughout. Walls have been plastered and painted. Artificial lighting is provided by fluorescent strip lighting. Sash and case widows provide natural daylight throughout.
