The lower half of the image features a complex, abstract graphic design. It consists of numerous thick, black, swirling lines that resemble calligraphic strokes or liquid paint. These are interspersed with thinner, red, splattered lines and dots. The background is a light, off-white color, which makes the dark and vibrant red elements stand out. The overall effect is one of dynamic movement and artistic expression.

A new approach to celebrate a new era

A new contemporary entrance celebrates the dawning of a new era for what was previously 'a state of the art' office building.

Providing 115,000 sq ft (10,683.5 sq m) over 8 floors No1 Tithebarn now has an image to complement its high profile address.

The new entrance reception provides an approach to stylishly designed common areas and spacious refurbished offices on different levels of this imposing building which is situated above Moorfields Station.

New double-height contemporary entrance

The stunning new double-height glazed entrance provides access to an impressive reception with a new lift for disabled access and a feature staircase to the upgraded lift landing areas. The glazed entrance facade has been extended to include the upper ground and first floor levels, not only enhancing the dramatic external appearance of the building but allowing greatly improved natural light to the newly refurbished ground and first floor offices.
