ASSET MANAGEMENT OPPORTUNITIES

Short Term

- Consider formalising and charging for the car parking spaces.
- Look to slowly increase the shop rents as lease events occur.
- Liaise with retail tenants to increase lease terms.
- Continue with aesthetic works to the buildings to improve tenant satisfaction and demand.
- One of the flats (The Nook) is currently let as a holiday let and managed by holidaycottages.co.uk. The other flat (The Quarters) has previously been used as a holiday let and produced an income of approximately £17,600 per annum. This is now currently let on an AST and produces £10,500 per annum. Should this be converted back to a holiday let, the income receivable should increase.

Medium/Long Term

- Negotiate with tenants to take space back and develop further residential accommodation.
- Three flats are let on long leases with circa 65 years unexpired. It is expected that in the future the tenants will wish to extend their lease term. To do this the tenant must pay the Landlord a capital sum. These capital receipts have been estimated at £17,000 - £19,000 per flat at the current time. This amount will increase as the lease lengths decrease.
- Purchase the long leasehold flats and rent on ASTs or via holiday lets to increase income.
- Further development of the site/ car park to provide further retail and residential accommodation.
