Description

Oakcroft Farm is a former farm located on the B4011 with access to the M40 and A41 to Bicester. The site has recently been bought by our clients who have planned a comprehensive refurbishment programme to update the first 5 units on the site. The 5 units have B8 use and units 2-5 can be let separately or combined to offer a total of 6,975 sq ft.

The specification will include new roofs, new fully insulated electric roller shutter doors, new LED lighting, new WC in each unit, newly laid and painted floor and new external cladding. The units will be available from March 2026.

Other units owned by the landlord and refurbished to a similar standard can be seen in the photo gallery.

The units are available to let on a new lease direct from the landlord for B8 storage and distribution use. There are other units available for storage together with open storage.

Location

Oakcroft Farm is located 6.5 miles from Bicester via the A41, 16 miles to Aylesbury, 10 miles from Oxford and 29 miles from High Wycombe via the M40.
