PROJECT OVERVIEW

385 Exchange is a premier Class A industrial development designed to deliver modern functionality, institutional-quality construction, and exceptional accessibility in the heart of Greenville's dynamic I-385 corridor. Strategically positioned on one of the last remaining premier industrial development sites in Greenville County, the project offers outstanding visibility and immediate connectivity to Interstate 85, ideally located between Atlanta and Charlotte – two of the Southeast's most significant logistics and distribution hubs.

The development is planned to encompass approximately 338,040 square feet of state-of-the-art warehouse and distribution space across two modern industrial facilities thoughtfully designed to support a broad range of logistics, distribution, advanced manufacturing, and

e-commerce users. The buildings are expected to feature efficient layouts, flexible configurations, modern clear heights, ample trailer and auto parking, and circulation designed to accommodate today's evolving industrial operations.

385 Exchange is being developed to address the growing demand for high-quality industrial product throughout the South Carolina Upstate, one of the nation's fastest-growing manufacturing and distribution markets. The project benefits from exceptional regional connectivity, access to a skilled and expanding labor force, proximity to major interstate infrastructure, and convenient access to inland port and transportation networks serving the Southeast and beyond.

SITE PLAN

BUILDING SPECIFICATIONS

Site Data | ±338,040 SF

Acres	22.58
Jurisdiction	City of Mauldin
Zoning	I-1, Industrial
Utilities	Water, Sewer, Gas, Electric, Fiber
Truck Court	140' to 200' (60' concrete apron)

Building 1 | ±126,360 SF

Dimensions	260' X 486'
Parking	87 (Future +54)
Dock Doors	23 (9' x 10')
Drive-In Doors	2 (12' X 14')
Column Spacing	54' x 50'

Building 2 | ±211,680 SF

Dimensions	280' X 756'
Parking	154
Dock Doors	42 (9' x 10')
Drive-In Doors	2 (12' X 14')
Column Spacing	54' x 55'

AERIAL LOCATION

INTERSTATE AND TRANSPORT PROXIMITY

INTERSTATE ACCESS

About one mile to I-385, only 7 miles from I-85, and 26 miles to I-26.

SEA PORTS ONE-DAY DRIVE

Seamless connectivity to the Sea Ports of Charleston and Savannah, providing access to the world.

AIRPORT ACCESS

Only a 15 minute drive to the Greenville Spartanburg International Airport.

SOUTH CAROLINA PORTS

Only 25 minutes to the Greer Inland Port and less than a 3 hour drive to the Dillon Inland Port.

REGIONAL INDUSTRIES

INLAND PORT

Inland Port Greer is one of the most important logistics assets in the Upstate South Carolina industrial market. Operated by South Carolina Ports, the inland port connects the Greenville-Spartanburg region to the Port of Charleston by rail and gives manufacturers, distributors, and import/export users direct access to global trade routes without needing to locate at the coast. 94 million consumers live within 500 miles of the Inland Port Greer, which thrives in a prime location along Interstate 85 centrally located between Atlanta and Charlotte, one of the Southeast's strongest advanced manufacturing corridors.

The facility is strategically positioned between Greenville and Spartanburg, near I-85 and the GSP International Airport and extends the Port of Charleston's reach approximately 212 miles inland through

Norfolk Southern rail service. Norfolk Southern runs daily to and from the Port of Charleston improving efficiency and reducing carbon emissions.

The 2025 Inland Port expansion enabled the facility to double its capacity and added more than 9,000 feet of track in order to handle longer trains that carry more products. The expansion will allow the port team to perform 300,000 rail lifts each year assisting companies to move products throughout the U.S. and around the world.
