# Units B1-B5

## Halesfield 8, Telford

### LOCATION

The property is located on Halesfield Industrial Estate in the new town of Telford. Telford straddles the M54 motorway, being located approximately 15 miles from Junction 10 of the M5. The M54/M6 link gives easy access to the national motorway network, and to Wolverhampton some 18 miles to the southeast and Birmingham city centre approximately 35 miles distant. The county town of Shrewsbury is approximately 15 miles to the west via the M54 and A5 trunk road.

Halesfield is one of Telford's most established industrial areas, being developed from the 1970's. It is situated on the south eastern edge of the town and accessed via the A442 Queensway, which also affords access onto the M54 motorway approximately 3 miles to the north. Halesfield is home to a number of indigenous engineering and manufacturing concerns.

### DESCRIPTION

The property comprises a terrace of six single storey industrial units, which are currently arranged to provide three separate demises: Units B1 and B5 offer two self-contained units and Units B2-B4 provide three interconnecting units available as a single demise.

The buildings are constructed of a steel truss framework with brick and blockwork elevations, which are partially clad with steel profile sheeting, beneath cement board roofs incorporating glazed roof lights.

Each unit provides workshop and office accommodation, with vehicular access to the front via a roller shutter door. The workshops have a minimum eaves height of approximately 12ft 10ins, although this increases significantly in Unit B2 to allow for a mezzanine floor. Unit B1 has integral single storey offices and the remaining units have an attached single storey office block to the front. The demise of Units B2-B4 also includes a boardroom. All properties benefit from WC facilities.

Outside, there is a service yard and car parking facilities to the front of each unit.
