Description

The original character warehouse is arranged over ground to second floors, combining original industrial features with contemporary finishes to create an inspiring and versatile living and working space.

The ground floor features a secondary entrance allowing for a self contained space if required. It offers a flexible open-plan layout with high ceilings, industrial pendant lighting, and original warehouse columns, making it perfectly suited for studios, collaborative workspace, or event use.

The upper floors offer a similar open plan space with a fully fitted bathroom on the first floor landing. The second floor boasts vaulted ceilings, exposed timber trusses, and large factory-style windows that flood the space with natural light. Restored solid wood floors and an exposed brick fireplace add warmth and character, balanced by modern lighting and updated services.

The first & second floors benefit from consent for residential.
